

AFTER A CRASH

DON'T make these two MISTAKES

Call us at 1-800-832-6573

After years of helping thousands of injured people fight for the benefits they needed, our law firm wants to help you make good decisions in a difficult time. So, our first advice: avoid the big mistakes.

MISTAKE #1 - Counting on the Insurance Company

To try and keep their costs down and your payout lower, they might:

- ❖ Seek to settle the case quickly, before the extent of your injuries is known
- ❖ Slow down your claim to gather information that could work against you
- ❖ Prefer you do not get advice or representation from an attorney
- ❖ Ask for a recorded statement early on that limits your options later

MISTAKE #2 - Choosing the Wrong Lawyer

The wrong lawyer for you:

- ❖ Moves too fast and may miss information crucial to your case
- ❖ Doesn't answer your questions, creating confusion and frustration
- ❖ Is hard to reach, which can mean your case is not a priority
- ❖ Is reluctant to go to court, because he or she lacks trial experience

STRENGTH IN NUMBERS
