# PROTECT YOURSELF

Insurance adjusters may want the upper hand with injured victims. Their priority is usually not you.

To try and keep their costs down and your payout lower, they might:

- ❖ Seek to settle the case quickly, before the extent of your injuries is known
- ❖ Slow down your claim to gather information that could work against you
- ❖ Prefer you do not get advice or representation from an attorney
- ❖ Ask for a recorded statement early on that limits your options
