

THEY TAKE YOU & YOUR CAR HOME

Did you know there are sober ride programs throughout NC? These services not only drive you home, but have someone drive your car home too!

Some arrive with an extra driver, others arrive on a scooter that folds up to fit in your trunk, and then drive you home in your own car. Rates vary, but most are comparable to a regular taxi service — if not less.

If you’ve had a few drinks and are ready to go home, contact one of the sober ride services nearest you.

One choice can make all the difference.

BONUS: *Helpful apps & taxi shortcuts*

The SaferRide App
 Created by the National Highway Traffic Safety Administration, this simplified app tells you where you are, and has options to call a taxi or pre-programmed friend.

Uber & Lyft
 These are like taxi services, but generally cheaper since drivers pick you up in their personal car. When placing the order, you receive a photo and description of the driver and car and a notification when they’ve arrived.

Call #Taxi
 This might be the simplest way to hail a taxi yet. Just call # Taxi and you’ll be connected to your local service. Calls cost between \$1.25 and \$2.50, depending on your wireless carrier.
