# A Formidable Team

We know great results start with great people, and we have a team of **more than 60 accomplished attorneys**, many of whom have won awards and are recognized professionals in their fields. They’ve authored books, spoken at seminars for other attorneys, and several are NC State Bar Board Certified Specialists in their field. All supported by roughly 200 highly-trained staff members.

Through this team, our clients gain an advantage in knowing how the other side operates. We have former insurance defense attorneys, former insurance adjusters — and even a former state senator on staff.

*“When I graduated from law school, there was only one place I wanted to work — James Scott Farrin. For years I have admired the firm for its values and service to others. It is an honor to work here.”*

## *A Culture of Innovation*

Our goal has always been to build a great firm. And we realize that doesn't happen by settling for conventional approaches. We innovate to create advantages for our clients.

We are leaders in applying business principles to the management of a law firm. We've received national recognition for our marketing campaigns, organizational systems, and use of technology (including two proprietary software programs we developed). And what's more, these innovations free our attorneys to put their talents to work for our clients.

We bring that same spirit of innovation to each case. We expect our attorneys to creatively navigate around obstacles and build powerful cases. Our goal is to create an advantage for every one of our clients.

*"Innovation distinguishes between a leader and a follower." – Steve Jobs*

## *A Strong Track Record*

We've recovered in excess of \$1.6 billion for more than 60,000 clients in North Carolina over the years.\*

Plus, in one of our proudest moments, we helped lead a team of law firms in obtaining a historic \$1.25 billion settlement for 15,700 claimants who were discriminated against by the United States government.

An impressive history. And we're still going strong.

## *Recognized for Our Experience*

When the media wants answers, they come to us.

We have been featured on public radio, interviewed on local TV, and appeared in nearly **100** newspapers and websites.

# Mission-minded

For us, our work is a mission.

Often our clients have been knocked down and face difficult challenges. Whatever their circumstances, our mission is to help and protect our clients to the full extent the law allows.

So maybe it's not surprising that our employees are passionate about making a difference in their community as well. Here are some of the organizations we've helped.

“

As an attorney myself, it was important to me to find a reputable, professional law firm to handle my personal injury claim. A few days into the claim, I recognized the enormous amount of time it would take from my own schedule and knew that it was something I could not handle individually.

From the first call to the last meeting, my case was handled professionally and expeditiously; I never felt that my calls or emails were being ignored. Both [my case manager] and [my attorney] were accessible when I had questions, concerns, or just wanted to vent! They both went above and beyond to make sure my case (albeit a small claim) was handled as if it was a significant personal injury claim.

They made me feel more like an individual rather than a case... I cannot say enough about these ladies or this firm. I will always refer my students, friends, and even fellow legal colleagues to this firm because they treated me with respect and diligent care.
